

May 1st 2008 - Forbes-AV recently attended Crestron South-west's Open House near Dallas as a partner/provider of their new custom training room furniture. The facility boasts multiple training stations, instructor station, credenza, and conference table.

Designed to fit the specific needs of the training facility the pieces include integrated control products along with logo's and finish to enhance the Crestron brand. This is the third office that Forbes-AV and Crestron have partnered together on to enhance the training experience.
